

THINK POLITICS IS KEEPING SIXTH FROM BEING CALLED OUT

LOCAL MILITIA WONDER IF RE-
PUBLICAN DISTRICT IS BE-
ING SHUT OUT.

M'KENZIE IS ON THE JOB

Congressman Is Making Every Effort
To Get Troops From His
District In.

Captain Soper is getting his recruit
ing work in excellent shape. Tonight
he will detail Lieut. Preston, a bugler
and several uniformed privates to in-
vade Polo and make an effort to get
a few young men from that city to
join the guard. Tomorrow night a de-
tail will go to Sublette to see what
can be done. Two of the company's
men reside at Sublette and it is quite
likely there are others who would
like to see service in the army.

There is no question about the
Sixth regiment going into service and
the belief is that the regiment will be
called soon.

May Be Politics.

There are five counties in the 13th
congressional district without repre-
sentation in the National Guard camp
at Springfield and militiamen are
wondering if there may not be just a
little politics in the game, either in
the war department or in the reg-
iment itself. The military authorities
at Washington know the condition of
the local militia better than the peo-
ple here and in some particulars bet-
ter than the officers of the organiza-
tion. It seems that something should
be done quickly to get someone from
the counties in this section to repre-
sent these counties at the front.

Not Up To Strength.

The truth is that the Sixth reg-
iment was not up to peace strength
and that is the reason given by the
war department for not calling it out.
The fact is, none of the regiments in
the state were enrolled to the peace
limit, but they were called to Spring-
field and the recruiting is being done
there. The Sixth could have recruited
in Camp Dunne as well as the others
if given the chance.

McKenzie Is Busy.

Congressman McKenzie is doing all
he can with the war department to
get recognition for the Sixth, but a
republican can do little with a demo-
cratic administration even in peace-
ful times. Senator Lewis seems to be
at odds with the secretary of war and
if anything could be done it would
seem that Lewis could do it.

FREEPORT MACHINE GUN CO.

Unit of Sixth Regiment Will Be Or-

Captain Neiman.

(Associated Press)

Springfield, June 27—All indica-
tions point to the departure of the
First Infantry tonight for the border,
followed shortly by part or all of the
Second and Seventh Infantry, Bat-
teries B and F of the Field Artillery
and the Hospital Corps. The first
infantry was mustered into the fed-
eral service yesterday and the others
are being mustered in today. The
mustering resulted in only a negligi-
ble loss of men.

Battery C, the "millionaire" bat-
tery of Chicago, and Battery E were
mustered in this morning after they
had been up all day yesterday and
last night. After they were muster-
ed in the members of the B. C. and
E. were subjected to physical exam-
ination by seven surgeons of the
United States Army. One examined
each man's eyes, another his heart,
another his lungs, etc.

Every man in Battery C took the
federal oath. Mustering in the sec-
ond infantry was completed at noon.
The Third and Fourth Infantry reg-
iments will probably be the last to
leave for the border as they are
equipped only at the ratio of sixty-
five men to a company. The Third
and Fourth regiments will be vac-
cinated tomorrow against ty-
phoid. The First Cavalry will be
mustered in probably tonight.

were sentenced to 30 days in jail. The
men were bound over to the grand
jury but requested to plead guilty
and States Attorney Edwards thought
a jail sentence would be the best way
out of the trouble and granted the
request provided they left town at
the expiration of their terms.

jacked the framework up, nailed it
fast and drove off to its destination.

MEDILL M'CORMICK IS G.O.P. CANDIDATE

FORMER PROGRESSIVE COMMIT-
TEEMAN SEEKS CONGRESS.
MAN-AT-LARGE.

STATES HIS POSITION CLEARLY

Medill McCormick, formerly Pro-
gressive national committeeman from
Illinois, is a candidate for Congress-
man-at-large. He announces himself
as follows:

I shall be a candidate in the Re-
publican primaries for nomination for
congressman-at-large. I have
come to this decision after carefully
weighing the opportunities for ser-
vice in Springfield and in Washing-
ton, in conference with friends all
over the state.

This is not the moment for a can-
didate to elaborate his views, but
since evasion of certain issues has
been popular in some quarters, cand-
or compels me to say that we have
been brought to the verge of war on
two continents by the exacerbating
and empty diplomacy of the present
administration. Its threats, warnings
and adjurations have been received
with disdain in England, Germany
and Mexico. American foreign policy
has held no meaning either for Mex-
ico or embattled Europe. It has had
no weight; it has implied no action.
Even today, not a man, not a gun, not
a ship has been added to the roll at
the end of the long course of query
and threat.

A policy of vapid vacillation and of
unprincipled compromise is responsi-
ble for the danger which threatens us
in Mexico and will be responsible for
the unnecessary loss of life from dis-
ease and from battle, which now must
attend any campaign there. I believe
the Hay-Chamberlain bill to be cruel-
ly inadequate, and the Daniels naval
program absurdly insufficient. But, I
hold the opinion that, in the present
crisis, we owe it to the country to
support its government in every hon-
est effort for the protection of its cit-
izens and the maintenance of its hon-
or.

I feel the more free to enter the
congressional primary because it ap-
pears certain that the republican can-
didate for governor, whoever he may
be, will be committed to the principle
of Home Rule for Chicago, in the
matter of public utilities; to a consti-
tutional convention; to an executive
budget, and to the principle of busi-
ness reform, embodied in the report
of the Efficiency and Economy com-
mission.

Even though I be elected to Con-
gress, I shall hope to spend some time
in Springfield in support of this pro-
gram. I plan to make a vigorous cam-
paign in my own behalf, as well as in
behalf of the other candidates of the
Republican party, subject, of course,
to the exigencies arising out of the
situation in Mexico.

ORPET TELLS OF INTIMACIES

Curious Crowd of Women Gather To
Hear Sordid Details.

Waukegan, Ill., June 27—The lo-
cal court room was crowded with a
curious throng, 95 per cent of whom
were women, when Will Orpet re-
sumed the stand in his own behalf
and related his intimacies with Mar-
ion Lambert for whose death he is on
trial. He was calm under cross exam-
ination.

(Associated Press)
Washington, July 27—While the
United States today awaited final
word from Carranza which will de-
termine whether there shall be peace
or war, thousands of guardsmen all
over the country were making ready
to entrain to reinforce General Fun-
ston's command for any operations de-
velopments make necessary.

Greater efforts are being made to
eliminate all red tape and expedite
the dispatch of guardsmen to the bor-
der. Final physical examinations will
be postponed until the troops reach
their destinations. Troops and army
supply trains will be given the right
of way.

MAY FORCE ACTION IN FORTY-EIGHT HOURS

There are clear indications today
that if the American cavalrymen cap-
tured at Carrizal are not released in-
side of 48 hours action will be taken
by the United States.

The impression prevailed in official
circles that Wilson will not wait be-
yond Thursday and possibly not be-
yond tomorrow afternoon for a defi-
nite reply from Carranza to the note
demanding the release of the prison-
ers and a declaration of intentions.

ARMY IS GETTING INTO BETTER CONDITION

Wilson's first step, should he de-
cide to force the issue, will probably
be to lay the whole situation before
Congress in joint session. It is believ-
ed he so informed the members of
the Foreign Relations committee in
conference with them last Sunday
night.

Any resolution presented for action
would include a re-affirmation that
the United States has no purpose of
territorial aggrandizement. Every
day's delay sees the army in better
condition for what may follow.

Although no time was named in the
ultimatum sent to Carranza, it was
generally understood in Washington
that an answer was expected with
forty-eight hours and that the de facto
government had been given so to
understand. President Wilson has
taken the stand that there must be no
delay nor temporizing; either Carranza
must completely back down or war
will result.

Ends Mediation Efforts.

If Carranza replies negatively to
the American demands the procedure
will be for the president to go before
congress and ask for a formal declara-
tion of war. Secretary Lansing finally
put an end to all the efforts of the
Latin-American republics to bring
about mediation by letting it be un-
derstood that this government cannot
listen to any such proposal.

The war department has received
reports that 30,000 to 40,000 militiamen
in four states, including New
York, are ready to proceed to the bor-
der at once.

After adding nearly \$30,000,000 for
the expenses of the Mexican mobiliza-
tion the house passed a vastly in-
creased army appropriation bill. The
appropriation committee decided to
submit a \$25,000,000 deficiency bill for
the expense of mobilizing the militia.
An appropriation of \$5,000,000 for the
purchase of machine guns was writ-
ten into the bill.

Congressman Rhodenberg: I agree

Sixteen Year Old Boy Tried To Enlist In Co G. Monday

A young man with a child-like face
appeared at the recruiting office of
Co. G yesterday, approached the re-
cruiting officer and said, "I want to
enlist." The officer looked him over
and asked "How old are you?"
"Sixteen," answered the lad.
"You are too young," replied the
officer. "We cannot enlist men as
young as you as the new military law
does not make effective until July
1st," the officer added.
"Well, I thought you needed men
and I thought perhaps you would
take me because I am nearly a man
in size and I can handle a gun well
and I am a good shot," said the lad.
"It is true we need men, but you
are too young and I doubt if your par-
ents would sign the papers for your

enlistment," said the officer.
After saluting the officer the young
man turned away with a disappoint-
ed look and said, "Well, I guess I can
wait until after July 1st and if I am
needed then you will find me ready
and willing to serve my country and
ready to protect the old flag even up-
on the hot sands of Mexico."
It is not best to publish the name
of this brave young fellow but it goes
to show that there are young men
who will go to war, even if their age
is against them. This lad was serious
and really wished to enter the army.
He felt that his country called him
to the front and he wanted to go.
There are thousands like him in this
country and as a rule this kind of lads
make good soldiers.

Vest Pocket Essays

By **GEORGE FITCH**
Author of "At Good Old Swash Lawyers."

This essay is going to be a great rebuke to the lawyers, because it is going to tell all about them in 400 words, whereas, a good lawyer cannot get through the preamble of an indictment for chicken stealing in less than 1000 words, many of which are as long as a bull snake.

A lawyer is a passenger to prosperity on the wheels of justice and he usually rides alone. He is the only man who can examine a law and tell what it means without making chemical analysis. This is because all our laws are made by lawyers. A lawyer gets \$7,500 a year and mileage for making laws and \$50,000 a year for telling what he meant when he wrote them. And if he is a particularly fine lawyer he can afterwards earn \$200,000 a year by demonstrating to the supreme court that they are no good anyway.

It is a lawyer's business to protect mankind against villains, reformers, justice, injustice, and other lawyers. For this he receives a retaining fee which is a sort of financial tie rope to keep him from going over to the other side. After the case is over he re-

DUNNE'S SON JUMPED TO ARMY CAPTAINCY

Cols. T. R., Bryan and Jim Campbell Duplicated.

Camp Dunne, Springfield, June 27.—Richard Dunne, son of Gov. Dunne, and private in battery B of the field artillery, will be mustered into the United States service as Captain Richard Dunne of the Seventh regiment, if he accepts the offer of Colonel Daniel Moriarty. The son of the governor, in his new position, will be regimental quartermaster.

He succeeds Captain P. J. Ratigan, a veteran of the Spanish war, and the man who organized the Seventh's machine-gun company. Captain Ratigan retired because of business reasons that made it impossible for him to go to the front at this time.

Reverend Edward Kelly, chaplain of the regiment in the Spanish war, said his last name for his "boys" as an active officer Sunday, and now is retired. He is succeeded by Reverend John O'Hara.

ARKANSAS KINGBIRD

Tyrannus verticalis

Length, nine inches. The white edge of the feather on each side of the tail distinguishes this from all other flycatchers except the gray and salmon-colored scissortail of Texas.

Range: Breeds from Minnesota, Kansas, and Texas to the Pacific ocean and from northern Mexico to southern Canada; winters from Mexico to Guatemala.

Habits and economic status: The Arkansas kingbird is not so domestic as its eastern relative and seems to prefer the hill country with scattered oaks rather than the orchard or the vicinity of ranch buildings, but it sometimes places its rude and conspicuous nest in trees on village streets. The bird's yearly food is composed of 87 per cent animal matter and 13 per cent vegetable. The animal food is composed almost entirely of insects. Like the eastern species, it has been accused of destroying honeybees to a harmful extent, and remains of honeybees were found to constitute five per cent of the food of the individuals examined, but nearly all those eaten were drones. Bees and wasps, in general, are the biggest item of food (38 per cent), grasshoppers and crickets stand next (20 per cent), and beetles, mostly of noxious species, constitute 14 per cent of the food. The vegetable food consists mostly of fruit, such as the elder and other berries, with a few seeds. This bird should be strictly preserved.

CAPTAIN MOREY IS RESCUED BY JENKINS

U. S. Dead at Carrizal Estimated at 23.

Field Headquarters, Mexico, June 27.—Twenty-three American soldiers are known to have lost their lives on the battle field at Carrizal, according to a report to General Pershing from Major Jenkins, commanding the Eleventh cavalry column, ordered to scour the country in that vicinity for survivors.

This report told of the rescue of Captain Lewis S. Morey, after he had made a daring stand in the face of heavy sacrifices in an effort to save the lives of his men. Major Jenkins said he had evidence that nine American troops, in addition to those previously reported dead, had been killed.

A note found on the body of Captain Charles T. Boyd, the American commander who lost his life in a charge on the Mexican machine gun trench, proved that General Felix Gomez, the Mexican commander, invited them into the town of Carrizal, and that he had refused and afterward conferred with Gomez outside the town. Neither the note book of Captain Boyd nor that of Captain Morey, both of which were recovered, threw new light on the clash, according to the report.

Faust Boyd of Ashton was here yesterday.

Miss Virginia Yontz returned to her home in Henderson, Ky.

At Clinton, Iowa, Saturday, occurred the wedding of Miss Goldie Marie Beatty, a daughter of Mr. and Mrs. Lewis Beatty of the Bend, and Fred Smith, a son of Oliver Smith of this city. Although they had furnished a home here on Second street, and had informed a few friends of their approaching marriage, the time and place came as a surprise. The wedding gown was a gray crepe de Chine, with which a white hat was worn. They have returned to Dixon and are already keeping house in their new home. Both young people are well thought of and have many friends who wish them the happiest future. The bride, before her marriage, had been a student at the Coppins Commercial College and had assisted at the Kramer store. Mr. Smith is a plasterer by trade.

Thomas Family Reunion

One of the largest and happiest reunions of the Thomas family, the descendants of the late Evan C. Thomas of Franklin Grove, his sons and daughters, grandchildren, and great grandchildren—was held here Sunday and Monday at the home of two Dixon descendants, Mrs. William Graves, a daughter, and Mrs. Abner Barlow, a niece. On Sunday the reunion was marked by a dinner held in the Assembly Park Annex; on Monday with a buffet luncheon at the home of Mr. and Mrs. Abner Barlow.

Those present at the reunion included: Mr. and Mrs. George W. Eastwood of Greeley, Colo.; Mr. and Mrs. A. U. Thomas and daughter Harriet of McAlester, Oklahoma; Misses Mary C. and Harriet E. Thomas of Newport, R. I.; Mr. and Mrs. Byron Eastwood and daughter Ruth of Rockford, Ill.; Mr. and Mrs. Erwin Schwahn and two sons of Stevens Point, Wis.; Mr. and Mrs. Curtis Boyce of Wauwatosa, Wis.; Mrs. Nina Crane of Mountain View, Calif.; Mrs. Edward McCleary and son and daughter of Fresno, Calif.; Misses Leola Stafford and Nina Stafford of Ravin, Ill.; Miss Ada Wilson, Chicago; Miss Ruth Wilson, Milton, Wis.; Mr. and Mrs. Louis Graves and three daughters of Franklin Grove, Ill.; Mr. and Mrs. Abner Barlow and son Edwin, Mrs. William Graves, Mr. and Mrs. B. Frank Downing and daughter, and Miss Alice Williamson of Dixon, Ill.

Sunday's dinner was followed by a program of toasts, with A. U. Thomas, the youngest son of the late Evan C. Thomas, acting as toastmaster in the absence of the elder son, E. W. Thomas, of Brainerd, Minn.; who was unavoidably detained at home at the last minute. Mr. Thomas also answered to a toast as the youngest son. Mrs. George W. Eastwood of Colorado answered to the request for a toast from the eldest representative present. She read a letter written by Seth Whitmore of Lockport, N. Y., the maternal grandfather, in 1864 and the last letter of Mrs. Belle Thomas Wilson, who passed beyond three years ago. Miss Harriet Thomas, Jr., Byron Eastwood, and Louis Graves spoke for the second generation, and Miss Golda Graves and Miss Alice Williamson for the third. Mrs. Abner Barlow represented the cousins of the family in a brief talk. The "in-laws" of the family were represented by Mrs. A. U. Thomas, Mrs. Byron Eastwood, Curtis Boyce, and Frank Downing. Little Miss Mary Louise Downing, daughter of Mr. and Mrs. B. F. Downing of this city, charmed her elders with two daintily executed violin solos and the Misses Gracia and Gladys Graves of Franklin Grove gave two delightful vocal numbers.

At the enjoyable luncheon at the home of Mr. and Mrs. Barlow on Monday an additional representative of the family, who could not be present Sunday, the Rev. W. W. Wilson of Newton, Wis., was added to the list of guests. No attempts were made at the luncheon at a formal program but a very delightful informal one, consisting of vocal numbers by B. Frank Downing, Curtis Boyce, Miss Leola Stafford, Miss Harriett Thomas, Jr., Miss Ada Wilson, Mrs. Erwin Schwahn, and Mrs. Harriet McCleary, was enjoyed.

Monday afternoon the guests began leaving for their several homes, others entertained this morning, and the majority of the remainder this afternoon.

THE PRICE WE PAY.

The following editorial from the Evening Telegraph of September 25, 1915, which had been saved by Commissioner of Health and Safety J. D. Van Bibber, was brought to this office yesterday by that official with the request that we re-publish it, believing that it would have a good effect at this time. In connection with Fourth of July regulation, Commissioner Van Bibber states that the police department will be very strict in its regulation of the use of fireworks this Fourth and that the promiscuous use of the dangerous forms of explosives will not be tolerated:

Thirty lives, mostly those of little children, were lost last year as a result of the Fourth of July celebrations. Of these, one boy died of lockjaw following a blank cartridge injury, five persons were killed outright by firearms, five were killed by the explosion of fire bombs or torpedoes, six were injured by cannon and two by other forms of fireworks. Eleven children, mostly little girls, were burned to death by fire from fireworks. Besides the thirty fatal accidents, there were 1,135 non-fatal injuries. One person was totally blinded, eleven lost one eye, five lost legs, arms or hands and 38 lost one or more fingers. Of these injuries, 227 were due to giant firecrackers, 190 were caused by firearms and 93 by cannon. These figures taken from the Thirteenth Annual Summary of Fourth of July injuries, published by the Journal of the American Medical Association, show that the cost of our annual patriotic orgy of noise and gunpowder is still far more costly than it should be. Yet a comparison with previous years shows a distinct gain. In 1903, when we first began the collection and publication of these figures, 406 deaths from lockjaw followed the Fourth of July celebration, while 60 deaths from other causes connected with the day and its observance were reported. The total figures for the past thirteen years show that since 1903, our Fourth of July celebrations have cost us 991 lives from lockjaw and 871 from other causes, making a total of 1862 lives lost as a result of the old-fashioned, noisy, nerve-racking and dangerous Fourth of July celebrations. During the same period, 42,089 persons were injured, making a total of 43,951, or nearly four regiments of American citizens who were killed or injured as a result of our misguided efforts to show our patriotism.

As has been repeatedly pointed out, the responsibility for these Fourth of July accidents rests entirely with the city government. The regulation of fireworks and methods of celebrating the Fourth is a matter for municipal regulation. The city authorities, therefore, must be held personally responsible for any Fourth of July accidents or deaths which may occur. Loss of life through lockjaw, the burning to death of little children, the maiming and crippling of citizens and the destruction of property by fire can all be prevented by properly enacted and rigidly enforced ordinances in 43 of the largest cities in which the bulk of these accidents occurred. Restrictive ordinances are usually looked on as halfway measures and are not enforced. Absolute prohibition of the sale of fireworks in any form has been proven to be the only means by which the loss of life and a heavy toll of disabling and mutilating accidents can be avoided. In particular, if New York and Philadelphia will take proper steps to regulate this situation, the number of accidents next year can be cut in half.

HENRY CLEWS ON MEXICO.

The weekly letter of Henry Clews, New York financial sage, contains the following on the Mexican situation:

Neither the United States nor Mexico really wants war; yet conditions are such that a catastrophe of this sort seems imminent. To the United States the consequences cannot be serious, except in the unnecessary loss of life. Neither the creation of an army of 100,000 to 200,000 men, nor the expenditure of a few hundred millions of dollars will make any decided impression upon the vast resources of the United States. The ratio of costs and losses in a war with Mexico would be very much less than in case of the European war, and no such corresponding outlays for munitions and transportation would be necessary. No serious international difficulties are threatened by the Mexican crisis. War or intervention might revive the jealousies of South American states, which we have been sincerely trying to avoid with partial success, and should pass away entirely as our southern neighbors acquire a better understanding of our intentions. War might raise some questions concerning our responsibility to other nations which, like ourselves, have large interests in Mexico that would be vitally affected. It is too early, however, to intelligently discuss such problems, and for the time being we are chiefly concerned with immediate action. We may first anticipate a period of excitement and an adjustment from peaceful to warlike conditions. Mobilization of men, war, finance, preparation and shipment of munitions will each act as stimulants and promote activity. Optimism is one of the usual concomitants of war; yet it must be remembered that this war, should it really come, will be a relatively small affair, and that in a comparatively short period the country will become accustomed to the new conditions and affairs will go on much as before. How long and how stiff a struggle is to be expected cannot be foretold; nor ought its difficulties to be underestimated, although the immense superiority of the United States in resources and men indicates but one result—war with Mexico cannot end until order, justice and a stable government have been established upon a firm basis. In any event the task is a thankless one. Our government has already made it clear that it has no lust for conquest, nor territorial ambitions; a declaration that should be lived up to not only for our own good, but also as an example of good faith and good will between ourselves and all South American republics. For Mexico the war is a serious matter, since with limited financial resources and difficulty in securing adequate supplies of munitions defeat is doubly certain.

A new song has it that of all the battle songs, the greatest battle song of all is "Here Comes the Bride," etc. The writer of that song must be awfully mean.

Daddy's Bedtime

Little Tuk at
Story—Last Learns His
Geography Lesson.

Together They Flew Across Zealand.

[Adapted From Hans Christian Andersen.]

WHEN daddy sat down the children cried, "A story!" So he told them: "A little boy, Tuk, who had to help his mother so much he had no time to study his geography lesson, used to dream it. One night an old weeding woman who could change into a beautiful green frog and then back into an old woman again came to tell him about the little town of Soro. She had an apron over her head so wet that Tuk knew it had been raining in her town.

"Yes, indeed," said the old weeding woman, "it is wet; it is wet in my town. My town is like a bottle. You get in by the neck, and then you have to get out the same way again. Once I used to have beautiful fish there. Now I have rosy cheeked boys down at the bottom of the bottle. They get a great deal of wisdom there—in school, you know, Greek and Latin. Ko-ax!"

"It was just like the creaking of frogs or the creaking of fishing boots when you walk through a swamp. It was always the same sound the old woman made just before she changed back into a frog. Such a tiresome sound, Ko-ax!" that little Tuk fell into the soundest kind of a sleep, which was best for him.

"But in his sleep he dreamed that his little baby sister that he used to take care of when he should have been studying geography had grown up into a big girl with beautiful curls and that she could fly. Together they flew right across Zealand, where Tuk studied his lesson.

"Do you hear the cock crowing, little Tuk?" he heard the old weeding woman saying. "Cock-a-doodle-do! You shall have a big chicken yard at your house. You will be a rich and happy man. Your house will hold up its head like King Waldemar's towers, and your name will spread around the world."

"Remember the estates of the realm!" somebody said just then. "You will go to parliament and speak wisely and well—"

"Just as if I really were in the little town of Soro!" cried little Tuk, quite disgusted with the voices. And then he woke up. It was bright daylight, and he remembered nothing about his dream, but only that he had been too busy to get his geography lesson and had gone to bed with the book under his pillow. He sprang out of bed and studied till he knew his lesson. Then the old washerwoman that he had helped carry a pail of water stuck her head in his door, nodded and said: "Many thanks for helping me, little Tuk. May all your dreams come true."

"Did they, daddy?" asked Evelyn. And daddy kissed her twice.

REFORMER UNDER ARREST

Charged with Framing Up Dynamite Outrage on Himself at Muncie, Ind., June 27.—Wilbur Ryman, special prosecutor before the present grand jury, was arrested on a charge of subordination of perjury, the affidavit being filed by William A. McIlvain, chief of police.

It is charged that Ryman employed David (Bat) Masterson of Terre Haute fame, and now of Indianapolis, to come to Muncie and give false testimony before the grand jury to the effect that Masterson, with four alleged gunmen, had been employed by Mayor Rollin H. Bunch, Chief of Police McIlvain and Gene Williams, former deputy prosecutor, recently convicted for conspiring to solicit and accept bribes, to dynamite Ryman's house and to murder Frank Whitney, a dry worker, who was assaulted in front of the police station a few months ago.

Greece Would Borrow Money.

Athens, June 27.—The first action of the new cabinet formed by M. Zalmis after assurances had been given the entente powers of the intention of the government to proceed as quickly as possible to satisfy the demands made upon Greece was the opening of negotiations for an Anglo-French loan with which to tide the country over until elections are held.

LOOKS JUST LIKE
CALIFORNIA SCENEROSES OF RAVISHING BEAUTY
GROWN BY H. C. HIGGINS AT
CENTRALIA

The following from the Centralia Review, concerning Henry C. Higgins, formerly of Dixon, will be of interest to his many local friends:

Typically Californian, one of the most beautiful scenes in this city is the great cluster of roses at the home of H. C. Higgins, just east of Centralia.

On three sides of the large mansion, roses of the "Dorothy Perkins" variety cover the lower portion of the residence. The blossoms are pink, and are so numerous that it is difficult to distinguish even the green of the plants.

Three years ago, Mr. Higgins planted these roses, and by careful cultivation, he has succeeded in getting the remarkable stand that he now has.

While a spot of beauty for Mr. Higgins' own enjoyment, the public draws probably the greater benefit from the beauty of the flowers, it nearly resembling a Californian garden. A trip to see these is well worth while.

Carranza Fires Mexican Pacificist.
Laredo, Tex., June 27.—It was reported unofficially here that First Chief Carranza had removed General Alfredo Ricaut, commander of the northeastern Mexican border patrol, and reinstated General Emilliano Mafarate, a notorious "Gringo" hater, now at Tampico. The change was said to have been due to Ricaut's failure to attack the American forces that crossed the river in pursuit of bandits on June 17.

Another Battle Rumored.
Columbus, N. M., June 27.—A report was in circulation here that another clash of American and Carranzista troops had occurred in the vicinity of Villa Ahumada, but army officers here have not confirmed it.

FASHION, OR WOMAN'S HEALTH

The first thing many persons think of finding on the Woman's Page of a newspaper is the Fashions. That is not what women most need to find there. Health is the first thing, and many women lack it. Notes telling how to preserve the health are of the greatest value and interest for women; and, if they are suffering from woman's ailments, they read with the most intense interest how other women got well from their ailments, and so they get what made them well—Lydia E. Pinkham's Vegetable Compound.

NO MEDIATION OVER
MEXICO, LATINIS TOLDSecretary Lansing Considers
Time for Such Action Unripe.

Washington, June 27.—South and Central American republics will not offer mediation to the United States in the Mexican crisis at this time. This announcement was made by Minister Calderon of Bolivia after a conference with Secretary Lansing.

Minister Calderon said he had been informed by the secretary that the United States considered this was not the time for mediation. The minister added, however, that the Latin-American countries might consider the subject again after the United States had received a reply to its note to the de facto government of Mexico.

Acting on behalf of himself and other diplomats who previously had asked the Mexican embassy whether mediation would be acceptable, Mr. Calderon called at the department to inquire whether the United States would entertain an offer of good offices from the other American republics. It was not disclosed just what form the inquiry took.

CARPATHIANS DO NOT HALT RUSS

Forces of Czar Drive on Toward Hungary.

BLOW TO AUSTRIA STUNNING

Germans Holding Russians in North—Italy Gains on 20-Mile Front in Trentino—Retakes Large Part of Early Austrian Gains—British Guns Pound Western Front.

London, June 27.—Russian troops have broken through the fastnesses of the Carpathian Mountains and are sweeping down upon the plains of Transylvania. All Hungary is menaced and the danger to Budapest is greater than at any time since the war began, according to dispatches from Petrograd.

With the capture of Kimpolung the last of Bukovina came under Russian control on Saturday, and an advance of six miles to the west of Kimpolung, with the capture of positions near Pezorit, is announced.

Russ Gains Are Spectacular.
The Russian advance into the Carpathians, though started several days ago, has apparently proceeded with unexpected success. Recent reports from Vienna indicated that the southern portion of General Pflanzer's defeated army had retreated to positions commanding practically all of the chief passes of the mountains and would desperately resist a further Russian advance.

Though official report of the Russian entry into Transylvania is lacking in details, it indicates that the advance was made at a point close to the Roumanian border, and was pushed with such fury that the Austrian defense was totally broken and routed, at this point at least.

Germans Check Rus.
In the northern sector of the battle front, particularly in the Kovel region, it appears that the Germans have decisively checked the Russian advance, at least for the time being. Eleven thousand Russian prisoners and much booty are claimed by the Germans in the last ten days.

Germans Capture 11,000.
Berlin's official report says: "Apart from lively artillery activity at certain places and some fighting by small detachments, nothing of importance has occurred on the northern portion of the front."

"Army group of General von Linzinger: West of Sokul, near Ztuzze, stubborn engagements continue successfully for us. The number of prisoners and the amount of booty taken since June 16 has increased to 61 officers, 11,097 men, 2 cannon and 54 machine guns. Army group of General Count von Bothmer: The situation generally is unchanged."

British Offensive Is Violent.
London, June 27.—While the British and French offensive on the La Bassée-Somme front reached a violence which brought official admission of its importance from Berlin, dispatches indicated that the Germans are preparing for another desperate thrust at Verdun.

Paris claims the recapture of a trench between Fumlin and the Chenois woods and the repulse of a violent German assault near Thiamont.

Italians Gain 20-Mile Front.
Rome, June 27.—The capture of a dozen Austrian positions on a wide front was announced in a supplementary official statement, reporting the Italians making amazing progress in their new offensive.

A general retreat of the Austrians in the Trentino district over a sector about twenty miles in extent, is announced in an official statement issued by the war office. The Italians are pressing the pursuit vigorously. The text of the statement follows:

"The enemy, incapable of overcoming our defense and under the energetic pressure which we have been forced to begin a retreat north of the Mandrielle road. We have captured the positions of Castel Gamberto, Mellette, Mount Longara, Gallio, Asiago, Cesuna and Monte Cengio. Our advance continues vigorously closely at the heels of the enemy."

MUSTER IN TWO REGIMENTS

First and Second Illinois Infantry U. S. Fighting Units.
Camp Dunne, Springfield, Ill., June 27.—The First and Second Infantry, Illinois national guard, became fighting units of the United States for service in Mexico by means of federal muster. This hastened process places the two regiments in readiness for the order to leave for the border.

Federal muster of the Second Infantry as a result of urgent orders from Major General Barry to rush all available troops into government service began immediately following the work of the First.

Casement on Trial.
London, June 27.—A clerk in the court of the lord chief justice called out at 10:20 o'clock Monday morning, "The king versus Sir Roger Casement," and the trial of the knight accused of instigating the Irish revolt was under way. In 45 minutes a jury had been selected and before night fall the trial had begun.

A CRY FOR HELP

LOTS OF IT IN DIXON BUT DAILY GROWING LESS

The kidneys often cry for help. Not another organ in the whole body more delicately constructed; Not one more important to health.

The kidneys are the filters of the blood. When they fail the blood becomes foul and poisonous.

There can be no health where there is poisoned blood. Backache is one of the frequent indications of kidney trouble.

It is often the kidneys cry for help. Head it.

Read what Doan's Kidney Pills have done for overworked kidneys. "Read what Doans' have done for Dixon people."

F. K. Chare, tailor, 1204 First St., Dixon, says: "I had a dull ache in the small of my back, right across my kidneys. I had heard Doan's Kidney Pills highly recommended, so I got some at Leake Bros. Co.'s Drug store. They removed the pains in my back and I have had no kidney trouble since."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Chare had. Foster-Milburn Co., Props., Buffalo, N. Y.

FIFTEEN MOOSE REJECT HUGHES

Progressives Split Over Plea by Roosevelt.

MURDOCK BOOM FALLS DOWN

Thirty-two Members of National Committee at Chicago Vote to Follow T. R., Perkins and Flinn—John M. Parker Left Alone with Vice Presidency.

Chicago, June 27.—Colonel Roosevelt's plea for unanimous endorsement of Hughes for the presidency on behalf of Progressive party was turned down by fifteen members of the Progressive national committee, with the announcement, on their part that they will continue the third party movement in their states, regardless of the colonel's attitude.

Their declaration of insurgency came after a futile attempt to put Victor Murdock of Kansas into the running, instead of Colonel Roosevelt. Bitter recrimination, culminating in the exchange of the "short and ugly word" between Bainbridge Colby of New York and Raymond Robins of Chicago, marked the consideration of Mr. Maddock's name.

Some Facts Known.

These facts stood out foremost in the bitter fight which raged throughout the day in the committee room at the Auditorium hotel:

Former Justice Hughes will not be accepted as the presidential candidate of a large per cent of the Progressives.

Progressive leaders in all of the Southern and part of the Eastern and Western states will decline Colonel Roosevelt's invitation to merge with the Republican party.

Third party state tickets will be put up in the states where the candidacy of Mr. Hughes is repudiated by the Progressive organizations.

Colonel Roosevelt's invitation to amalgamate with the Republicans, contained in a message of 3,000 words, was received in comparative silence by the committee. It was the signal for the minority faction, led by John M. Parker of Louisiana, named as vice presidential candidate; Henry M. Cochems of Wisconsin and Judge Albert D. Norton of Missouri, to start their fight against the domination of George W. Perkins of New York.

Fairbanks Unmentioned.

Scarcely had the reading of the Colonel's "Give up the Ship" plea been finished than the minority struck at its biggest loophole—failure to mention the candidacy of Charles Warren Fairbanks, or to advise the committee what to do relative to the vice presidential nomination which had been given to Mr. Parker in the national convention.

Mr. Parker refused to "give up the ship." Likewise his followers refused to accept Mr. Fairbanks. The Colonel's silence in the matter was construed as being an implication that Mr. Fairbanks should be accepted unequivocally with Mr. Hughes, and the recall applied to the nomination given Mr. Parker.

Parker, A. T. Moon of Utah, J. M. Ingersoll of Idaho, A. D. Norton of Missouri, Burton Cance of Kentucky, Bainbridge Colby of New York, E. M. Harris of Rhode Island, Henry F. Cochems of Wisconsin and others left the meeting.

FUNERAL OF YUAN IS HELD

Sacrifices Are Offered at Bier of Late President of China.

Pekin, China, June 27.—The funeral of Yuan Shih-kai, late president of the republic, took place at the palace Monday. Li Yuan Hung, the new president; Dr. Paul S. Reinsch, the American minister, and other members of the diplomatic corps were present at the service, which was chanted by priests of the lama. Sacrifices were offered by many officials.

Clever Patients

"I hate to read a story where the hero is thrown into prison," said Angelica.

"You should never worry about that," replied Uncle Digby. "The quick witted hero will invariably get out. I never worry when my heroes get into prison, but I do not care to have them sick or wounded. Under such circumstances they are never able to accomplish much. Sick people are pretty helpless."

"Yes," said Angelica, "but once I got ahead of a whole hospital full of nurses and doctors. I never said anything about it before, but I'll tell you. 'You know they boil the water that you drink in a hospital, which gives it a horrible taste. Boiled water should be as good for you as mineral water, for it tastes just as bad. How I did hate that boiled water! And it never seemed to be quite cool either.'"

"The nurse didn't seem to care whether it had been thoroughly chilled or not. I think she enjoyed giving it to me warm."

"One day I was awfully thirsty. I asked for water. Even boiled water was better than nothing. But the water seemed a little warmer than usual and I could not drink it. Then I set my wits to work. I had to have cold water and I first contemplated getting out of bed and hunting up a faucet. But I gave up that idea, for I was pretty weak."

"And at last I hit upon a scheme. I rang the bell and when the nurse appeared I told her I wanted to wash my teeth. Pretty soon she returned with some real water—real, honest, germ laden, unboiled cold water—in a bright attractive beaded tumbler. The instant the nurse left the room I drank it down with one big gulp and then I poured the boiled water over the tooth brush."

"Day after day I worked that trick. The nurse and the doctor when they figured out how much boiled water they were getting down me, were very proud and happy. It was a record. Other doctors had a lot of trouble getting boiled water down their patients' throats, but I was a model."

"I could hear my doctor bragging to his doctor friends about his water consuming patient and exciting their envy. Every nurse and doctor you see is ambitious to see how much boiled water they can get into a patient."

"Once the doctor and nurse wanted to see me drink it. Nothing could give them more pleasure than witnessing their precious boiled water disappear down my throat, but I refused to perform with any one looking, altho I trembled for fear my refusal would excite suspicion."

"That was a slick scheme," said Uncle Digby. "The next time I'm sick and they bring me medicine I'm going to call for some shoe polish, saying: 'I've been seized with a sudden notion to shine my shoes. Then I'll drink the shoe polish and shine my shoes with the doctor's dope.'"

Wrong House.

Hard luck had struck Johnson a fearful blow. In desperation he took on a job to sell books from door to door.

All down one street he went without making a single sale. Then turning the corner he determined to try a new method. The first house he came to was large and shabby, and a frowsy female answered his knock.

"Have you a Charles Dickens in your home?" he asked politely.

"No," snapped the female.

"Or a Robert Louis Stevenson?"

"No!"

"Or Walter Scott?" asked Johnson, hope dancing momentarily in his eyes. "No, we ain't!" said the woman sharply. "And what's more this ain't a boarding house. If you're looking for them fellers you might try next door; they take lodgers!"

That New Refrigerator of Yours---and Our Ice---

Are going to prove sources of great economy to you this summer.

They are going to save many a dollar for you, by permitting you to save portions of food from one meal to another—food that would be wasted were it not for your Refrigerator and OUR ICE.

Another saving will be in permitting you to buy cheaper by buying in larger quantities—saving what you don't need today for tomorrow, and your refrigerator and OUR ICE will keep it pure and wholesome.

If you will just telephone us when the refrigerator arrives we will gladly have our driver, on his next trip, ice it to its full capacity for the first time—FREE.
